24

25  
26                  The following minute order is made by the direction of the court, the Honorable Marsha  
27                  J. Pechman, United States Senior District Judge:

28  
29                  The Court has received and reviewed Plaintiffs' Notice of Supplemental Authority. (Dkt.  
30                  No. 17.) Local Rule 7(n) permits the filing of a notice of supplemental authority before the Court  
31                  rules on a motion provided that the notice identifies "relevant authority issued after the date the  
32                  party's last brief was filed." Plaintiffs' Notice refers to a California decision from 1970 and 2012  
33                  decision from this District. This violates Local Rule 7(n). The Court hereby STRIKES the  
34                  Notice, and will not consider its contents.
